

Strategic Alignment Conversations

What is covered in Strategic Alignment Conversations?

- Use simple but effective frameworks to inspire the team and assist them in seeing the value of aligning their personal goals to the organisational plan.
- Understand how team and individual purpose supports the achievement of strategic goals
- Facilitate a social contract with the team to ensure performance targets can be achieved or supported if they are moving off track

Who is it for?

This learning module is for leaders who want to corral people around goal achievement and to align them on the strategic priorities of the team / group. Templates are provided to support leaders in having these alignment conversations and to better understand what motivates their team members.

What does it offer?

This 90-minute module introduces attendees to specific techniques that can be used to help team members identify their personal goals and then understand how these will be achieved by committing to the strategic priorities of the organisation / team. Practical templates and recommended phrasing is provide to guide leaders in having these kinds of conversations.
